Fergin & Associates, Inc. is delighted to announce a new division within our company which manufactures a revolutionary, new consumer product called UHANG SYSTEM™ (patent pending).

The UHANG SYSTEM™ fills a distinct marketing niche and is remarkably versatile in function as well as mobility.

We developed the UHANG SYSTEM™ to satisfy a storage method for unfinished basements, garages, attics or porch overhangs.

The UHANG SYSTEM™ bracket for hanging from an I-Joists measures 4" in height by 2" in width by 2" in depth and is made of 16ga galvanized metal.

The UHANG SYSTEM™ can be purchased individually, or conveniently customized to include any of the following:

- (4) UHANG SYSTEM™ Brackets
- (4) 12", 18", or 24" x 3/8"-16 threaded rods or other custom lengths
- (8) 3/8"-16 nuts
- (2) 1x1x1 14ga U-channels (for shelf) which are available in 18", 26", 34" and 50" lengths for Joist spacing of 16", 24", 32" or 48"
- (1) 5/16" or 3/8" eye-bolt
- (1) 5/16" machine thread bike hook
- (1) 16 x 50 Metal Rack combine 2 or 3 with our U-channels

(UHANG SYSTEM™ brackets for two by four joists are also available.)

Benefits of the UHANG SYSTEM™ include:

- A revolutionary new bracket as it provides a convenient and flexible yet durable means of storing items using one or more I-joists (or by 2x dimensional lumber).
- A unique product which can be easily installed without tools, by just snapping into place on an I-joist or on a two by four joist.
- Strongly constructed and is capable of supporting heavy loads. Each UHANG SYSTEM™ bracket will support up to 250# if the supporting structure is good for that capacity.
- Made of galvanized metal and can tolerate various weather conditions (no rust) – for exterior or interior use.
- Makes use of different flange sizes as well as 2X dimensional lumber, and metal shelving.
- Can be installed to handle a wide range of applications, and can be easily adapted using generally available hardware components.
- Does not require anchoring and can be moved to a new location, or adapted to suit one's storage requirements.
- An excellent way to store items.
- Capable of hanging a bicycle, displaying a potted plant, conveniently organizing and storing lumber or other items, or constructing storage shelves quickly and easily.
- Unparalleled in its versatility, convenience and ease of use for a variety of applications.
- There simply is no other product like the UHANG SYSTEM™ that fulfills a basic need in organization and storage – and does so conveniently, economically, and effectively.
- A terrific product and made in the U. S. A.

Whether your storing boxes, storage bins, canoes, kayaks, or bulky items the careful and precisely designed UHANG SYSTEM™ has a versatile way of storing to suit individual needs. Or simply buy two or four UHANG SYSTEM™ brackets, the appropriate material and design your own shelving.

Metal storage racks 16" x 50" with a waterfall design rest on top of our 1x1x1 14 ga. U-Channels. They can be used alone or up to three units for a shelf 48" x 50" with our longer U-Channels.

Use the UHANG SYSTEM™ package to conveniently and efficiently store larger items such as lumber, piping, long poles for the day or longer.

Have a place, yet need the means to hang your bicycle or other bulky item safely, accessibly, and easily? Just snap an UHANG SYSTEM™ bracket on a sturdy I-joint or 2X dimensional lumber and securely attach a 5/16" machine thread bike hook with a 5/16" nut; then hang your bicycle.

UHANG SYSTEM™ brackets for 2X dimensional lumber are also available.

An efficient way to store your hanging plants. simply to avoid frost overnight, or to brighten areas with plants. Accentuate your pergola or gazebo with plants or garden lamps easily hung with the UHANG SYSTEM™

The flexible and convenient use of the UHANG SYSTEM™ is remarkable.
